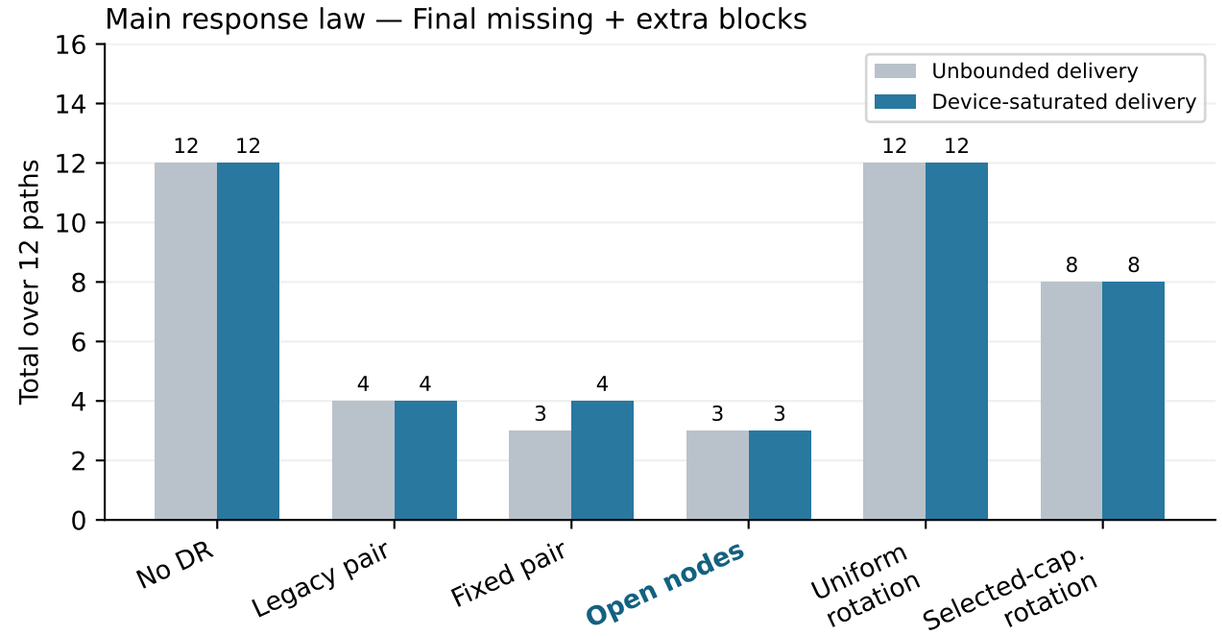
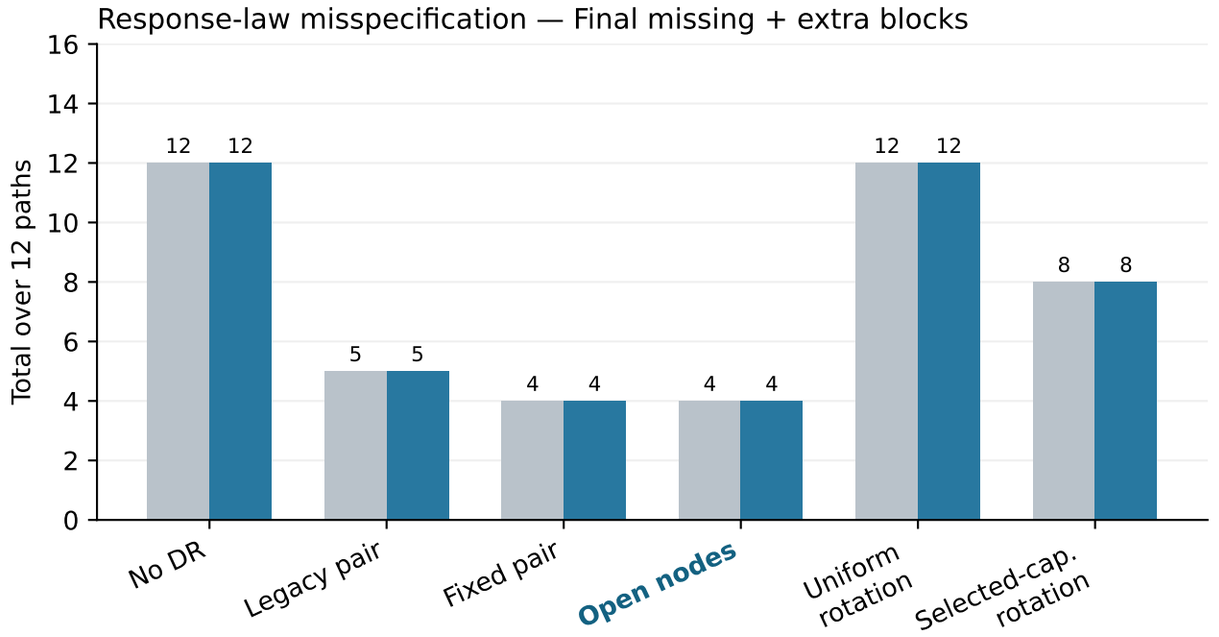
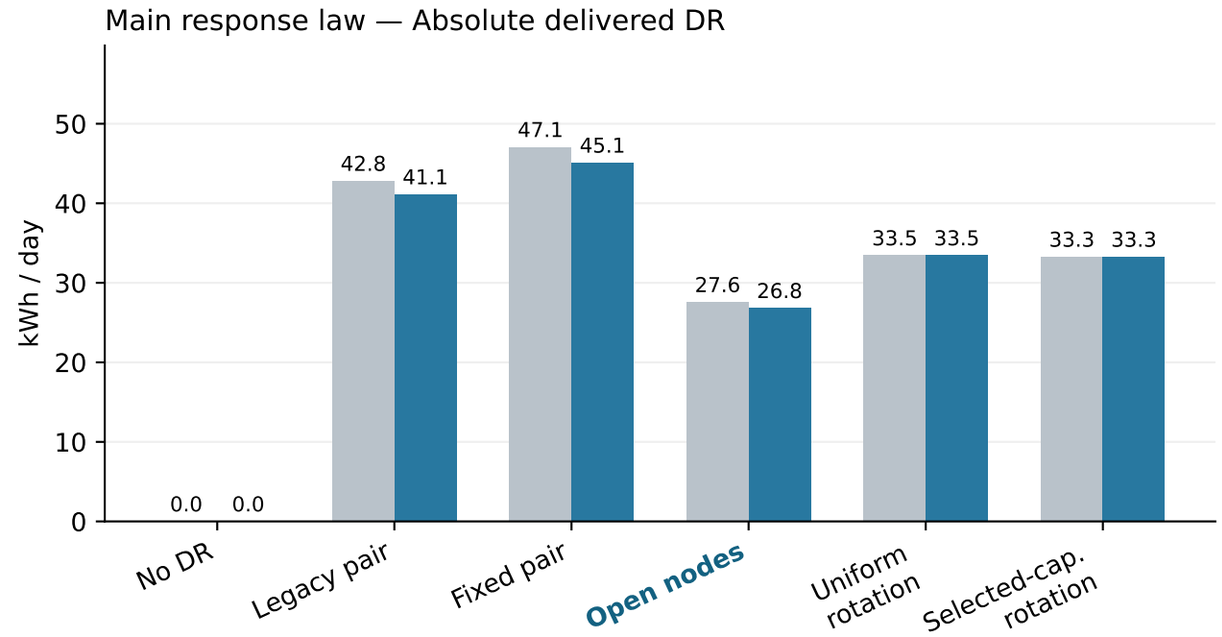
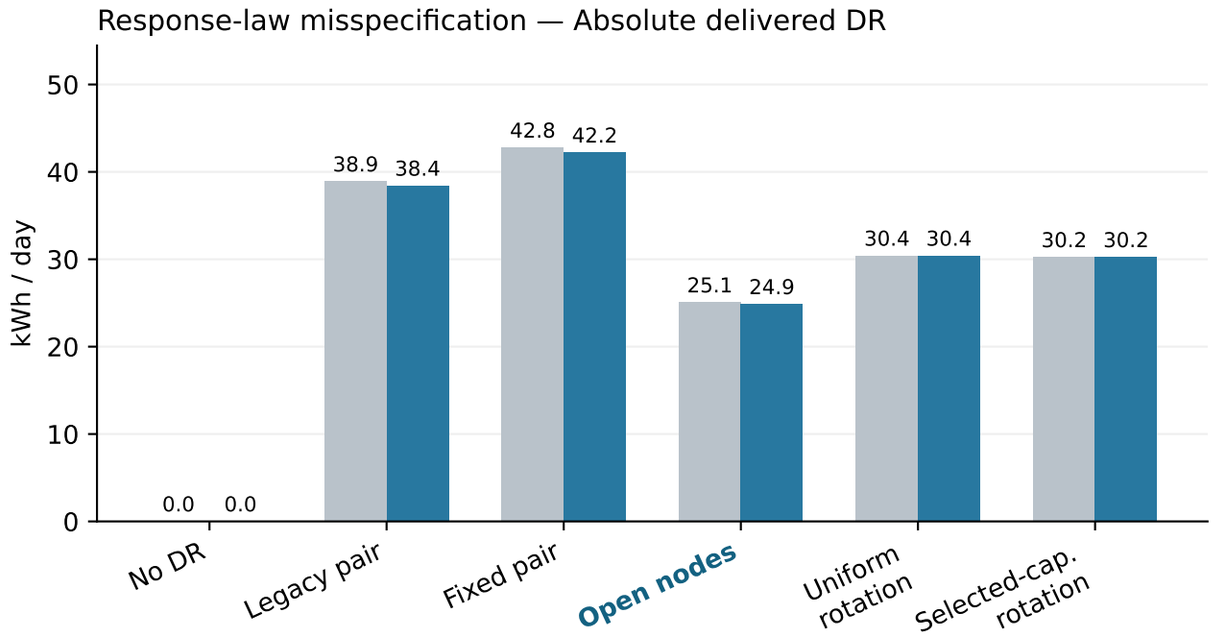
Same prices and random paths: effect of device saturation









12 shared background paths, two paired response laws; frozen historical R/X and original selection rule.
Daily prepaid fees unchanged: 0.00, 81.02, 91.45, 44.95, 44.95, 44.95. After saturation: zero device/voltage violations; 13,824 AC points converged.
